Who the f_ck is Blockboy?

In his recording studio and atelier in an old building flat in Munich, *Blockboy* regularly descends into spheres of visual art and sound, while swinging between bliss and desperation because of his perfectionism. With attention to detail, the communication designer plays and records all instruments himself, strictly according to the motto: *keep it real!*

To put a label on *Blockboy's* sound is not easy, since he moves between Ambient, Dubstep, HipHop, BigBeat and Funk - always enhanced by an affection for detailed samples of vinyl treasures.

Along with his band *Octopussies*, a HipHop-Reggae-Funk combo, that he is founding member, guitarist and musical lead of, Blockboy already has a lot of live experience and attention in Southern Germany - with hand-made music and real instruments. But now, after his first tracks on the well received sampler *Yummy! Yummy!*, his debut as a solo artist in the world of electronic music has arrived:

The **vinyl collector's edition** of Heartbox limited to 300 copies is moving on the fine line between the genres of Ambient, Downtempo, HipHop, Dubstep and Turntablism. Affectionate collages of sound surrounded by real vintage instruments, spiced by the masterful art of scratching, refined by selected features like the US Rapper *Mista Min* and the Jazz-Singer *Carolin Roth*, while staying deep, real and from the heart - this is Heartbox!

Label Info:

Hot Corner Records was founded in 2008 by John Pussner. Aim is to support new artists out of the realms of Electronic and HipHop. All of the featured artists emerge from the creative environment of John Pussner, which himself is a musician running his own recording studio in Munich.
